**Service Fees & Acknowledgement Agreement**

PI: \_\_\_\_\_

PROJECT: \_\_\_\_\_

**VA-BIC Service Fees**

The Harry S. Truman Memorial Veterans Hospital and the University of Missouri currently provide financial resources for the operation of the VA-BIC which allows us to offer research investigators the use of these resources at a substantially reduced cost.

Imaging services (Micro-CT/SPECT/PET/MRI) are currently provided at the rate of \$100/hour for instrument use time charges. Radioisotopes and contrast agents will be billed separately.

**VA-BIC Acknowledgement**

Investigators who use the resources of the VA-BIC agree to

- 1.) Pay all charges associated with their studies and
- 2.) Agree to perform their studies according to the method selected below.

\_\_\_\_\_ A. Data is collected by the VA-BIC personnel and processed by the Principle Investigator (PI) in the PI's lab. (Service Only)

\_\_\_\_\_ B. Data is collected and processed by the VA-BIC personnel. Images used by the PI in presentations and publications must include appropriate authorship of VA-BIC personnel. (Service and Professional Processing)

\_\_\_\_\_ C. Collaborative Research Projects: These studies involve extensive collaboration and study design working with the PI and the VA-BIC personnel. Presentations and publications resulting from these collaborations must include appropriate authorship credit of VA-BIC personnel. Extramural funding applications may require formal involvement of VA-BIC personnel.

Investigators are requested to include the following in all publications and presentations which use data generated by the VA-BIC:

**“We gratefully acknowledge the support provided by the Veterans Administration Biomolecular Imaging Center in Columbia, Missouri.”**
